BUREN ANSWERS

Consolidated Income Statement

Sep PY26 actuals vs Sep FY25 actuals, with FY26 YTD (Jan-Sep).
Consolidated: all subsidiaries, all departments, all classes. USD Reporting, Base version.

VANBUREN EPM · NSPB
NSP_NSF cube · Actuals through Sep FY26 · Generated 7 Oct 2026

Sep PY26 appears partially loaded. September revenue of \$1,521,729 is 17% of August's \$9,126,731, while operating expenses posted at a full month's run rate (\$1,981,505). The resulting net loss is a data-completeness artifact, not a trading result. Treat the Sep column and the YTD total as provisional until the period is confirmed closed.
